

My checklist for possible dementia symptoms

**Alzheimer's
Society**

Together we are help & hope
for everyone living with dementia

This checklist will help you have a conversation with a doctor or other health professional. Use it to note any difficulties you've had.

It is not intended to diagnose dementia or any other health condition. Everyone experiences dementia in their own way. This checklist includes common signs of dementia. But there can be other reasons for any changes you've noticed.

Talk to your doctor about any concerns that you've indicated on the checklist.

Memory and mental ability problems

Tick if
affected
by

Tick if
impacting
daily life

How long
it's been
happening

Memory loss – difficulty learning new information or forgetting recent events or people's names
